Support Coordination

Case management for adults with special needs

In New Jersey, the service of Support Coordination is required to access services and supports through Medicaid for adults 21 years and older. This Medicaid based fee-for-service model enables those eligible for the NJ Division of Developmental Disabilities (DDD) services, to have access to a multitude of services and supports to enhance their lives while providing flexibility and choice.

Why pick Spectrum CMC as your Support Coordination agency?

We only hire caring, compassionate and experienced individuals.

We provide continuous training to our staff and education on new supports to the families we serve.

The support Coordinator lives in your community and is knowledgeable of services and supports in your area.

We come to you and we listen!

WE APPROVE OUR OWN PLANS which means we have the ability to add or change services as you request them.

We are flexible to talk or meet when you need us.

We pay attention to the details to provide the most personalized services and supports.

We have extensive knowledge of resources and have great relationships with providers.

Our unique team approach results in more efficient support when you need it.
