

# Support \* Educate \* Advocate

Camden County Family Support Organization (CCFSO) is an organization designed, built and run by family members of youth with developmental, mental health, emotional, social and/or behavioral needs. CCFSO was developed to provide peer to peer support, parent education and advocacy as families navigate the many systems their children may encounter. CCFSO works one on one to one basis in conjunction with families engaged with CMO but also provides a variety of community outreach programs and a warm line available Monday through Friday from 9am to 5 pm.
